Livestreams Built Around What You Care About Most

We're bringing you more of what matters with AWS Livestreams - live shows, deep dives, and hands-on demos, all organized around the topics shaping how you build on the cloud. Whether you're curious about **generative AI**, looking to get more out of your **data**, leveling up on **security**, exploring **modernization and migration**, or building a strong **infrastructure** foundation—we've got you covered.

What's live in March?

Gen AI Series:

🟣 *Deep Dive with AWS! Amazon Bedrock - AI Agents*

Join us for an actionable deep dive into LLM agents with Amazon Bedrock. Through live demos and hands-on examples, you'll learn how to build AI assistants that can analyze data, write code, and automate complex tasks.

📅 **Mondays, 4:30pm - 6:00pm PT**

🟣 *AWS Show and Tell - Generative AI*

Learn how to build and scale cutting-edge AI applications on AWS using services like Amazon Bedrock, SageMaker, and Amazon Q—showcasing real-world use cases that drive innovation while balancing performance, cost, and security.

📅 **Tuesdays, 5:00pm - 6:00pm PT**

🟣 *GenAI LIVE!*

A show featuring AWS experts and partners sharing real-world strategies for driving business ROI, building data foundations, ensuring security, and scaling generative AI solutions responsibly.

📅 **Wednesdays, 8:00am - 9:00am PT**

Data Series:

🟢 *Let's Talk About Data*

Your weekly insider's guide to AWS data innovation, where leading experts, AWS Heroes, and industry pioneers share exclusive insights and game-changing strategies for maximizing your cloud data potential.

📅 **Mondays, 8:00am - 9:00am PT**

🟢 *AWS Tech Tales*

Hear real stories from the AWS frontlines as experts like Solutions Architects and TAMs tackle common customer challenges, troubleshoot issues, and show you how to apply their solutions

in your own environment.

📅 **Mondays, 2:00pm - 3:00pm PT**

Security Series:

🔴 *The Safe Room feat. Security Sidequest*

A series that demystifies incident response in AWS, equipping viewers with practical security skills using AWS-native tools like GuardDuty, AWS Config, and Amazon Inspector.

📅 **Mondays, 11:00am - 12:00pm PT**

🔴 *AWS Security LIVE!*

Join AWS' top security experts and industry-leading partners reveal insider strategies for conquering today's most critical cloud security challenges.

📅 **Tuesday, March 4 and March 18 | 8 - 9am PST**

Infastructure Series:

🟡 *AWS re:Post Live*

Uncover solutions to address your pressing AWS questions, learn battle-tested best practices, and discover insider troubleshooting tips you won't find in documentation.

📅 **Tuesdays, 2:00pm - 3:00pm PT**

🟡 *The Routing Loop*

A series dedicated to simplifying AWS Networking, covering connectivity, traffic routing, security, monitoring, and automation to help you build and operate resilient network architectures.

📅 **Wednesdays, 11:00am - 12:00pm PT**

Migration and Modernization Series:

🟠 *Severless Office Hours*

A weekly live session where you'll learn how to build serverless applications on AWS, with expert guidance on new features, best practices, and real-world solutions.

📅 **Tuesdays, 11:00am - 12:00pm PT**

All Topics Series:

⚫ *The Keys to AWS Optimization*

Your weekly masterclass in maximizing AWS value, where industry experts reveal insider strategies that could save your organization thousands in cloud costs.

📅 **Thursdays, 8:00am - 9:00am PT**

⬤ *AWS OnAir*

A weekly show that dives into the latest news from AWS and the cloud, with hands-on demos of recent AWS launches.

📅 **Fridays, 12:00pm - 2:00pm PT**

⬤ *Industries LIVE*

Explore how AWS and leading partners are solving real-world challenges in Financial Services and Media & Entertainment, with deep dives into industry solutions—minus the sales pitch.

📅 **Tuesday, March 11 and March 25 | 8 - 9am PST**

Special Events:

◯ *AWS Executive Connections for Innovate Generative AI + Data*

A flagship event featuring a live keynote from Rahul Pathak, VP of Data & AI/ML GTM at AWS, exploring how organizations are driving innovation with generative AI and data, followed by virtual breakout sessions and exclusive in-person executive discussions.

📅 **Thursday, March 13 | 9am - 9:40am PST**

◯ *AWS Pi-Day*

A special live event celebrating the anniversary of Amazon S3, featuring deep dives, demos, and conversations with AWS leaders on how AWS Storage and Analytics services help you unlock the full potential of your data for AI, ML, and enterprise innovation.

📅 **Friday, March 14 | 9am - 1pm PST**

◯ *Step Up Your GameDay!*

Join AWS experts and community guests as they tackle real-world cloud challenges live using AWS GameDay - a gamified, hands-on simulation where teams solve technical problems, earn points, and level up their cloud skills.

📅 **Wednesday, March 26 | 2 -3pm PST**

Where Can I Watch?

Catch every AWS Livestream on the channel that works best for you. No matter where you tune in, you'll get the same great content.
